   Install the battery (make sure
   the polarity is correct)

5. Remove the USB receiver

6. Insert the USB receiver into
   the USB port of the PC

7. Replace the battery cover
   and switch "ON".

Product features

- Stable wireless transmission
  2.4G wireless technique supports stable wireless connection
  within 20 meters.

- Power-saving design, longer standby life
  Smart power-saving chip, better power saving effect,
  with 12-month standby life.

- Silent mouse switch design
  Up to 95% less noise than a standard mouse.

- Long life mouse
  3 million click life span.

- Mouse 500Hz polling rate
  Polling rate represents the speed of data transfer between mouse
  and the computer. 500Hz polling rate can provide stable transmission
  without delays or skipping frames.

Multimedia keys

Press Fn + multimedia buttons can achieve many quick operation functions,such as play, pause, volume adjustment etc.

Fn+F1	Fn+F2	Fn+F3	Fn+F4	Fn+F5	Fn+F6
Media Player	Decrease volume	Increase volume	Mute	Previous track	Next track

Fn+F7	Fn+F8	Fn+F9	Fn+F10	Fn+F11	Fn+F12
Play/pause	Stop	Homepage	Email	My computer	Favorites

Basic parameters

- Mouse basic parameters:
  Wireless data transmission: 2Mbps
  Frequence: 2403.85MHz-2479.85MHz
  Channels: 16
  Engine: Optical
  Wireless transmission distance: 20m
  Working voltage: 1.5V
  Working current: 10mA
  Button life span: 3 million clicks
  Mouse size: 99x64.8x36.5mm
  DPI : 800-1200-1600 DPI
  Polling rate: 500Hz

  Working current: 10mA
  Standby current: 0.4mA
  Sleep current: 30uA

- Keyboard basic parameters:
  Wireless data transmission: 2Mbps
  Frequence: 2403.85MHz-2479.85MHz
  Channels: 16
  Distance: 20m
  Working voltage: 3.0V
  Working current: 2.0mA
  Button life span: above 3 million clicks
  Keyboard size: 435x143x26.41mm
  Working current: 2.0mA
  Sleep current: 60uA

- System capacity:
  XP Win 7/8/10
  Mac 10.14

Model no: IIMKXMETALWL
